SUPPORT INFORMATION

Introduction

Purpose of the System

The CARE Hospital Management System is designed to streamline operations in a healthcare environment by managing appointments, doctor-patient interactions, and administrative workflows. It serves three types of users: Admins, Doctors, and Patients — each with a dedicated interface and set of functionalities.

Key Features Overview

FEATURES

- Admin dashboard to manage appointments, doctors, and blog/news content
- Doctors can view assigned appointments and update medical histories
- Patients can book appointments, view history, and receive notifications
- News/Blog system for healthcare awareness
- Secure session-based login system for all roles

System Requirements

BROWSER COMPATIBILITY

Recommended Browsers:

- Google Chrome (latest)
- Mozilla Firefox (latest)
- Microsoft Edge

- Mobile support is limited; best viewed on desktop

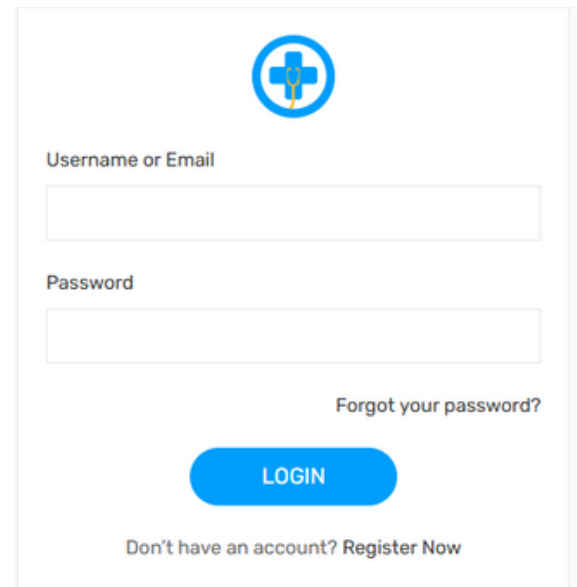

REQUIRED SOFTWARE

- For Local Installation:
 - XAMPP or WAMP (Apache, PHP, MySQL)
 - phpMyAdmin for database access
 - VS Code or any code editor for developers
- For Live Hosting:
 - PHP 8.0 or above
 - MySQL 5.7 or later
 - Apache-compatible web server

Accessing the System

LOGIN INSTRUCTIONS

- Start Apache and MySQL via XAMPP
- Visit <http://localhost/CARE/>
- Click the appropriate role login:
- Admin → [admin/index.php](#)
- Doctor → [doctor/index.php](#)
- Patient → [index.php](#)
- Enter your credentials and click Login

The login form features a blue medical cross icon at the top. Below it, there are two input fields: 'Username or Email' and 'Password'. A 'Forgot your password?' link is positioned to the right of the password field. A prominent blue 'LOGIN' button is centered below the fields. At the bottom, a link reads 'Don't have an account? Register Now'.

ROLE-BASED ENTRY

- Admin: Manages users, appointments, and system content
- Doctor: Views appointments and updates patient history
- Patient: Books appointments and tracks medical activity

1.

BOOK APPOINTMENTS

- Choose doctor and date/time
- Confirm appointment with a single click

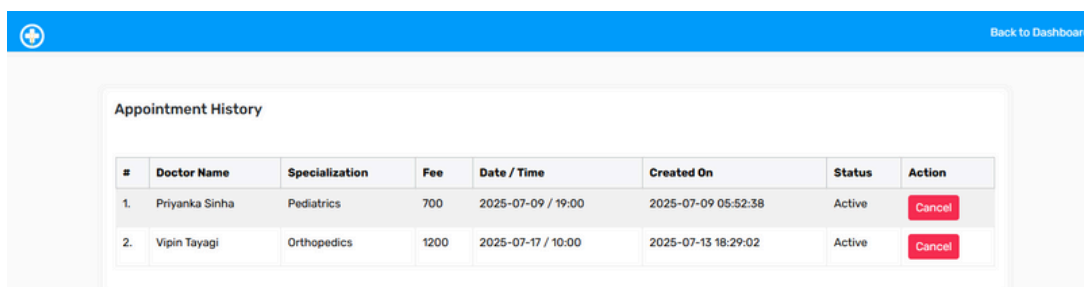

The screenshot shows a web interface for booking an appointment. At the top, there is a blue header bar with a plus icon on the left and a 'Back to Dashboard' link on the right. The main content area is light gray. In the center, there is a white box titled 'Book an Appointment'. Inside this box, there are several form fields: 'Doctor Specialization' (a dropdown menu with 'Orthopedics' selected), 'Select Doctor' (a dropdown menu with 'Vipin Tayagi' selected), 'Consultancy Fees' (a text input field with '1200'), 'Appointment Date' (a date picker showing '17/07/2025'), and 'Appointment Time' (a time picker showing '10:00 am'). At the bottom of the form box is a blue button with a calendar icon and the text 'Book Appointment'.

2.

VIEW APPOINTMENT HISTORY

- List of past and upcoming appointments
- Status updates (active or inactive)

The screenshot shows a web interface for viewing appointment history. At the top, there is a blue header bar with a plus icon on the left and a 'Back to Dashboard' link on the right. The main content area is light gray. In the center, there is a white box titled 'Appointment History'. Inside this box is a table with the following data:

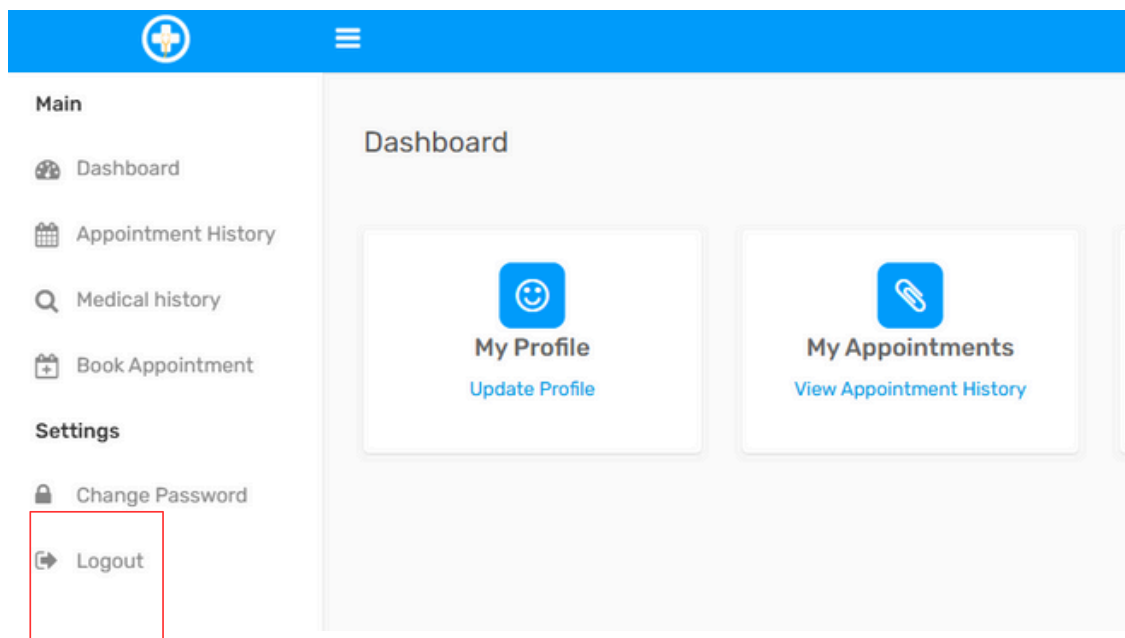

#	Doctor Name	Specialization	Fee	Date / Time	Created On	Status	Action
1.	Priyanka Sinha	Pediatrics	700	2025-07-09 / 19:00	2025-07-09 05:52:38	Active	<button>Cancel</button>
2.	Vipin Tayagi	Orthopedics	1200	2025-07-17 / 10:00	2025-07-13 18:29:02	Active	<button>Cancel</button>
